

Edward R. Close, PhD, PE, has more than 45 years of experience in the environmental field. He is a recognized expert in environmental science and has served as environmental adviser to more than 20 Fortune 500 companies.

Dr. Close completed most of his PhD at Johns Hopkins University in Baltimore, MD, worked for the US Geological Survey for 13 years and last served that agency as a Senior Hydrologist and Reports Specialist. For over 15 years he served either as Senior Hydrogeologist or Senior Environmental Planner for several large environmental consulting firms. He opened his own small environmental engineering company in Jackson, Missouri, in 1995 where he continues to serve Fortune 500 companies, as well as numerous small businesses, private individuals, and public entities.

Edward R Close, PhD, PE

Dr. Close is the author of numerous technical papers and 7 nonfiction books. In 2006, Dr. Close released the DVD: *Toxic Mold - A Breakthrough Discovery*. In 2007, he co-authored the book: *Nature's Mold Rx, the Non-Toxic Solution to Toxic Mold* in which he detailed 20 Case Studies for an innovative, leading edge methodology for preventing and remediating mold that he pioneered. Since that time, he has published booklets, brochures, CDs, and other publications educating the public in ways they can enjoy a better quality of life and health through the use of his discoveries for a non-toxic solution to mold prevention and remediation. He has been a member of the Indoor Air Quality Association since 1995, and a member of the National Society of Professional Engineers since 2001.

Dr. Close is also a member of MENSA, a member of ISPE (the International Society of Philosophical Enquiry) and serves as the Society's Science Editor for their publication "Telecom," and a Distinguished Fellow of the ECAO (Exceptional Creative Achievement Organization).
